FARMER FUNDING OPPORTUNITY

We are thrilled to announce an exciting new opportunity for our local farms. We're looking for vegetable and specialty meat farmers who are interested in working with the Garrett County Health Department to receive financial and technical support to expand farming infrastructure.

This new grant is designed for us to take additional farmers who are considering trying to sell produce, those who want to expand to offer larger quantities or different types of produce, begin their own CSA or join an existing network and accept SNAP so that more farmers benefit and more people who use SNAP get more produce. We're open to many different ideas and want to work with new people!

Food and nutrition security are complex issues that take multiple agencies, community partners, and volunteers who are willing to work together.

If you have any questions, please email or call Shelley Argabrite at shelley.argabrite@maryland.gov or 301-501-6161.

We are anticipating an in-person event on October 26, 2023 at 6:30pm in the conference room of the Garrett County Health Department (Oakland).
